

 **AGRILASER[®]**

The ultimate solution to bird nuisance

AGRILASER®

Agrilaser® offers silent, effective and easy to use bird control products. Our patented optical technology is optimized for long distance bird repelling.

Birds perceive the laser beam as an approaching physical danger and fly away in search for safer grounds. Unlike conventional methods of bird deterrence, there will be no habituation effect. After consistent use birds will perceive the area as unsafe and will not return.

Agrilaser® Lite

CE

1000 meter

Specifications

Range	1000 meter
