

MULTI OBTUSE AND ACUTE ANGLES FOR EXTENSIVE SPIKE COVERAGE

CROSS DIRECTION SPIKE POINTS FOR DUAL PLANE PROTECTION

STAINLESS STEEL AND UV STABILISED POLYCARBONATE FOR WEATHER RESISTANCE

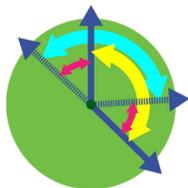

EXTRA LONG HALF METRE LENGTHS FOR FASTER INSTALLATION

BIRDOFF®
BIRD SPIKES

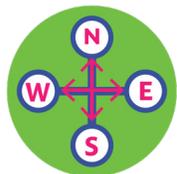

from the family of products by **PestFix®**

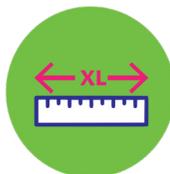

BIRDOFF® Spikes utilise angling from the polycarbonate bases plus angles on the stainless steel rods themselves. Creating extensive protection over an area without the cost and weight of excess material.

All BIRDOFF® Spikes are made with 302 Stainless steel and UV Stabilised 100% virgin polycarbonate to ensure longevity. The superior quality means BIRDOFF® Spikes have a 10 year product warranty.

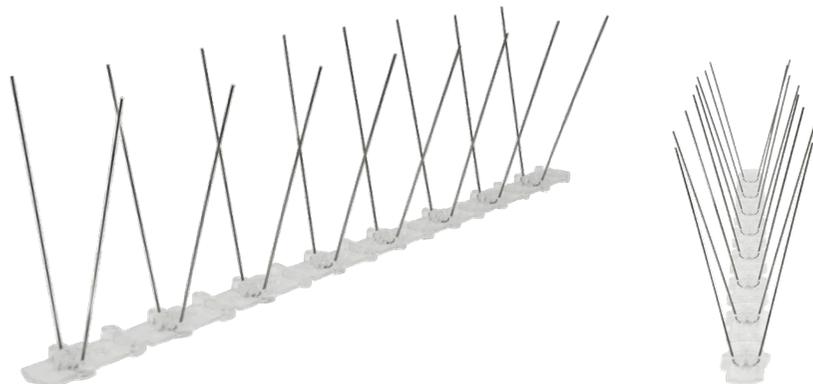

BIRDOFF® Wide Pigeon and Seagull Spikes have additional rods on the alternate plane. This ensures protection by negating the radial separation of spike points on the outer reaches.

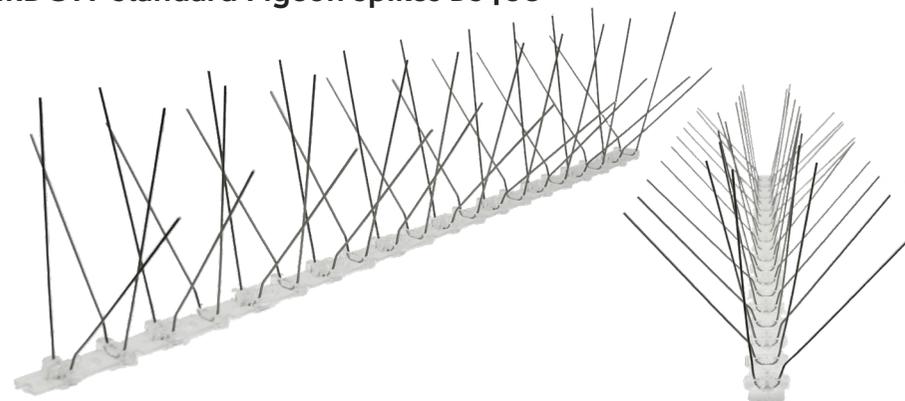

Each BIRDOFF® Spike is half a metre in length. Cutting down installation time by a third compared to other brands of bird spike. Scored at 50mm intervals BIRDOFF® Spikes can be snapped to smaller lengths instantly

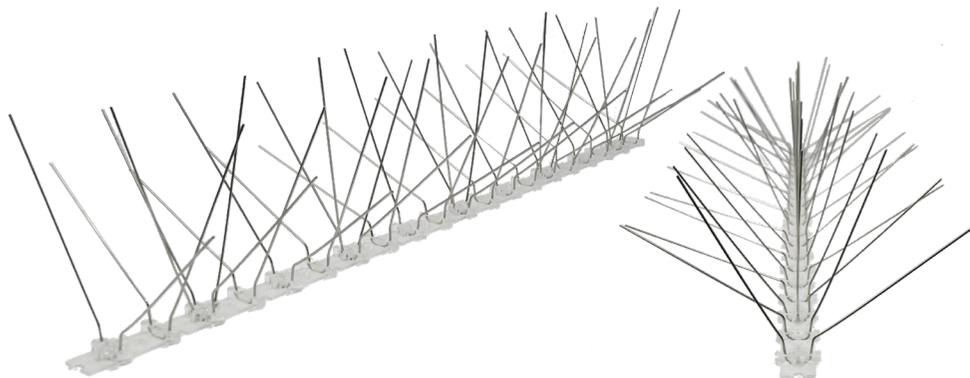

BIRDOFF Narrow Pigeon Spikes BS405

BIRDOFF Standard Pigeon Spikes BS406

BIRDOFF Wide Pigeon Spikes BS407

BIRDOFF Seagull Spikes BS408
