Cutting capacities

Material	Maximum cutting diameter
Galvanised steel cables, textile core	7mm (0.28in)
Galvanised steel cables, steel core	6mm (0.24in)
Hard steel cables, resistance 160 kg/mm ²	5mm (0.2in)
Non-oxidable steel cables, resistance 190 kg/mm ²	4mm (0.16in)
Extra tough cables and strands, resistance 210 kg/mm ²	3mm (0.12in)
Electric cables (copper or aluminium) with steel core)	7mm (0.28in)
Aluminium- of koperstangen	5mm (0.2in)
Iron rods, resistance 60 kg/mm ²	4mm (0.16in)
Tempered spring wire	2.5mm (0.1in)
Welded wire mesh	<input checked="" type="checkbox"/>
Rubber conveyor belt	<input checked="" type="checkbox"/>

The points of excellence

High-strength blades

Hardened and tempered blades for cutting the strongest of cables.

Triangular cutting action

FELCO's innovative triangular cut allows you to progressively cut cable wires and at the same time avoid squashing of strands. Thanks to this feature, it is generally not necessary to tie the cable before the cut.

	C7/10	Spring	1x C7/10	

Maintenance

Oiling

After cleaning, it is advisable to oil the tool so as to protect it from corrosion. The oil will also unjam the tool.
