

Insect-a-clear

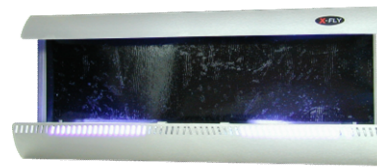

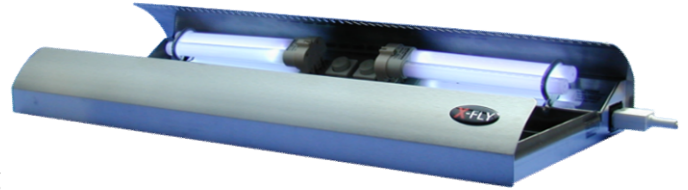

Order Code:

FGX2SS – X-Fly 2 with shatter resistant lamp

The **X-FLY 2** has been designed for use on the top of kitchen cabinets; other perfect locations are on top of wall-cupboards & high flat surfaces - on top of shelves, fridge-freezers, etc.

It is also a very effective fly control machine covering up to 70m² and is ideal for commercial premises. The units are easily installed. If no flat surfaces are available this slim unit can be wall mounted.

Its unique slim design makes it suitable in places where a conventional machine would not be suitable. The ultra violet glow gives an added dimension to lighting in the kitchen. Visitors to your home will only appreciate the subtle glow without realising the main purpose of this attractive feature.

Actual size W 40 x H 10 x D 27 cm
