

# Digrain Control One Shot Fogger

Professional Insecticide | One-Shot Fogging Aerosol | 300ml

## Product Details

**Product code:** I8061

**Active Ingredient(s):** Tetramethrin 0.24% + Permethrin 0.25%; Piperonyl butoxide 1.78% – Ireland only

**Markets:** GB, NI, IE

**Approval Number(s):** HSE No 11151-001-GB, 11151-001-NI; PCS No 103290

**Formulation Type:** Aerosol dispenser

**Shelf Life:** 2 years

**Target Pests:** Flying and crawling insects – ants, cockroaches, fleas, flies, wasps, wasp nests, mosquitoes, bed bugs, spiders, silverfish, hornets, stored product insects, moths, mites, red mites and beetles.

**Application:** Automatic 'one-shot' fogging aerosol. Remove all people, animals, pets and foodstuffs; close doors and windows. Place on a non-sensitive surface in the centre of the area, press the nozzle until it locks, and leave immediately. Do not re-enter for a minimum of 2 hours, then ventilate thoroughly. One 400ml aerosol treats 500m<sup>3</sup> (300ml – 375m<sup>3</sup>).

**Areas of Use:** Enclosed indoor situations – domestic premises, hotels, commercial and residential properties, empty animal housing, lofts, empty greenhouses, food preparation areas, building trades, kitchens, bakeries, and transport such as trains and boats.

## Key Selling Points

- Dual-action formula – fast knockdown with tetramethrin, plus lasting control with permethrin. Added PBO boosts performance.
- Synergised formula – stronger performance than single-active alternatives.
- Broad-spectrum cover – effective against 18+ named pest groups, including bed bugs, red mites and stored product insects.
- One-shot convenience – automatic lock-down nozzle treats an entire room with no operator intervention.
- Versatile indoor reach – approved for domestic, commercial, food preparation and transport environments.

## Key Safety & Handling Notes

- DANGER – extremely flammable aerosol; pressurised container may burst if heated. Keep away from heat, sparks and open flames; no smoking.
- Causes serious eye irritation (H319); may cause drowsiness or dizziness (H336).
- Very toxic to aquatic life with long-lasting effects (H410); hazardous to bees.
- Contains permethrin – do not use on cats or items used by cats; can cause severe adverse reactions in cats.
- For indoor use only. Exclude all persons and animals during treatment until surfaces are dry.
