5
Litre

Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment. Harmful: may cause lung damage if swallowed. If swallowed, do not induce vomiting; seek medical advice immediately and show this container or label. To avoid risks to man and the environment, comply with instructions for use.

Product is approved under The Control of Pesticides Regulations 1986 (for use as directed).

STATUTORY CONDITIONS RELATING TO USE FOR USE BY PROFESSIONAL OPERATORS.

The (COSHH) Control of Substances Hazardous to Health Regulations 2002 may apply to the use of this product at work. Maximum dose: **1 litre per 20 square metre** of sprayable surface or **1 ml per cubic metre** of sprayable volume. Engineering control of operator exposure must be used where reasonably practicable in addition to the following items of personal protective equipment. WEAR SUITABLE PROTECTIVE CLOTHING (COVERALLS) AND SYNTHETIC RUBBER/PVC GLOVES when using. AVOID EXCESSIVE CONTAMINATION OF COVERALLS AND LAUNDRY REGULARLY. DO NOT BREATHE FOG OR SPRAY MIST. Otherwise wear respiratory protective equipment and eye protection (see HSE GUIDANCE BOOKLET HS (G) 53, "Respiratory Protective Equipment - a practical guide for users"). However, engineering controls may replace personal protective equipment if a COSHH assessment shows that they provide an equal or higher standard of protection. DO NOT CONTAMINATE FOODSTUFFS, EATING UTENSILS OR FOOD CONTACT SURFACES. COVER WATER STORAGE TANKS before application. THIS MATERIAL AND ITS CONTAINER must be disposed of in a safe way. EXCLUDE ALL PERSONS AND ANIMALS DURING TREATMENT. DO NOT APPLY DIRECTLY TO ANIMALS. DO NOT APPLY TO LIVESTOCK OR POULTRY. DO NOT APPLY TO CLOTHING OR BEDDING. HAZARDOUS TO BEES. HARMFUL TO FISH AND OTHER AQUATIC LIFE. REMOVE OR COVER ANY FISH TANKS OR BOWLS before application. DO NOT CONTAMINATE watercourses. DO NOT USE ON FILTER BEDS AT SEWAGE TREATMENT WORKS.

READ ALL PRECAUTIONS BEFORE USE. HSE No. 7420

PRECAUTIONS

WASH SPLASHES from skin or eyes immediately. WASH HANDS AND EXPOSED SKIN before meals and after use. KEEP IN ORIGINAL CONTAINER, tightly closed in a safe place. IF SWALLOWED, DO NOT INDUCE VOMITING: Seek medical advice immediately and show this label or container. KEEP OUT OF REACH OF CHILDREN. ENSURE ADEQUATE VENTILATION when applying. VENTILATE TREATED AREAS THOROUGHLY after application. COLLECT EGGS AND REMOVE FEED, EXPOSED WATER AND MILK BEFORE APPLICATION. DO NOT HANDLE TREATED FABRICS UNTIL DRY AND AIR THOROUGHLY BEFORE USE.

APPLICATION GUIDELINES

When applying as a 'space treatment' then Vulcan NP 18 Fly Spray is a ready-for-use product and does not require further dilution. Apply using a fan assisted rotary atomiser or mist blower with ULV attachment or by means of any 'cold fogging' appliance. Vulcan NP 18 Fly Spray should be applied at a rate of 1 ml per cubic metre of treatable volume. Spray into the air when using cold fogging or misting equipment and NOT directly at hard surfaces.

When applying as a surface treatment, Vulcan NP 18 Fly Spray is a ready-for-use product and does not require further dilution. For the treatment of porous and non porous horizontal or vertical surfaces. Apply 1 litre of product as a coarse low pressure spray to 20 square metres of sprayable surface using a standard compression sprayer. Pay special attention to areas where flies and other noisome insects rest and congregate. For long-term control of crawling pests use a specific residual agent. Product may 'craze' plastic surfaces.

This product must not be used against houseflies in intensive or controlled environment animal houses because it is likely to cause control failure due to insecticide resistance.
