Why MouseStop?

Ready & easy to use

Instantly effective

Instantly waterproof

No pesticide

IPM compliant

Paintable

Industries

MouseStops unique properties allow the barrier paste to be used on a wide scale in the food industry as prescribed in the specifications.

MouseStop can be also be used in kitchens, bakeries, distribution centres, manufacturing facilities and companies with hygiene sensitive areas and environmental requirements.

Composition

Blend of vegetable oils, fillers and polystyrene pearls.

Packing

MouseStop is packaged in 300 ml cartridges.

A box contains 12 cartridges of 300 ml each.

Instructions

Preparation

Make sure the surface is clean and dry. Remove any loose material.

Application

- 1 Cut off the tip of the cartridge and screw on the applicator nozzle
- 2 Cut the applicator nozzle to a desired size depending on the size of the gap
- 3 Place the cartridge into a standard caulking gun
- 4 Slowly pull the caulking gun trigger. Apply evenly around the edges and fill the entire gap or opening
- 5 Smooth with a palette knife if desired
- 6 The barrier is now active
- 7 Clean hands and tools with a dry cloth after use, if necessary use mineral spirits.

Please note

- **Keep out of reach of children**
- **Avoid contact with eyes and mouth**
- **Not suitable for consumption**
- Can be used for openings/ducts of at least 5 mm.
- Make sure the layer depth is at least 10 mm
