Data Sheet

SolarGuard Mesh

PestFix SolarGuard Mesh is a flexible, modular polyethylene solution designed to prevent birds from nesting beneath solar panels. Durable, weather-resistant and easy to install, it provides long-lasting bird protection while allowing installers to adapt the mesh to suit different solar panel configurations.

Key features & benefits:

- Flexible and durable construction
- Easy to cut to the required width
- Can be secured using three clips
- Modular design for adaptable installation
- Made from recyclable plastics
- Corrosion-resistant material

Material	Low-density polyethylene (LDPE)
Dimensions	500 × 225 mm
Approx. Imperial Dimensions	20 × 9 in
Colour	Black

Unit 1-3 Cedar Park
30 Terminus Road
Chichester, West Sussex
PO19 8GT
