

Technical Specification

Pigeon Wire Reel

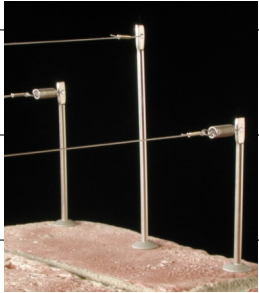

SKU's: PW200 / PW201 / PW202 / PW203

Product Description

This high-tensile pigeon wire is manufactured from 304-grade stainless steel and coated in UV-stable nylon for enhanced durability and weather resistance. With a core diameter of 0.45mm and a coated diameter of 0.7mm, it's designed specifically for use in PestFix post and wire systems to deter feral pigeons from roosting and nesting on ledges, beams, and other architectural features.

Key Features:

- **Available** in **50m, 100m, 250m, and 500m** reel lengths.
- **1x7 strand** construction for optimal strength and flexibility.
- **UV-resistant nylon coating** ensures long-term outdoor performance.
- **Compatible** with PestFix nickel-plated crimps and tension springs.
- **Not suitable** for bird netting applications (use 2mm wire rope instead).

SKU	Description	Weight	Diagrams	Installations
