

Galvanised Steel and Black PVC Coated Solar Panel Mesh

SKU: WM170-R

Product Description: This solar panel mesh offers sleek and robust protection against birds and pests for both residential and commercial solar panel systems. It is designed to prevent animals from nesting under solar arrays, safeguarding your roof, wiring, and equipment without the need for drilling, thereby preserving your panel warranty.

The black PVC coating not only enhances durability but also ensures a discreet appearance that complements your solar panels.
