

## Solar Speed C Clips

**SKU:** WM175

**Product Description:** A quick and efficient solution for solar panel bird protection, designed for versatility and ease of use.

These clips securely attach bird mesh or spikes to solar panel frames without requiring a return lip, ensuring a faster, more reliable installation. Featuring a removable design, they allow for easy maintenance while maintaining long-term effectiveness in keeping your solar panels pest-free. With a seamless, damage-free attachment, these clips provide maximum protection without compromising your solar panel's warranty, making them an essential component of any solar panel bird-proofing strategy.
